Blueberries

Easy to Grow—Excellent Flavor
Bear Young

South Michigan Nursery ~~~
~~~ New Buffalo, Michigan.

**GIANT**

*Cultivated  
Blueberries*

EASY TO GROW.  
Each year as we learn  
more and more about  
growing the HYBRID

cultivated Blueberries, we find that they are not near as fussy about what kind of soil they will grow on, as we did a few years ago. Of course they prefer a rather moist acid soil, but we also find that they will grow on other soil too, by adding some peat moss, old leaves or sawdust with the soil. Sulphur and water them well during dry spells.

The Cultivated Blueberry is a rather DWARF growing plant. A plant 15 years old will not be over 6 ft. tall, but it will be the same size in circumference. They grow in a ball shape plant, and their roots are all very near the top of the soil, so they must be cultivated very shallow. Set the plants 5 ft. apart each way, and keep clean by frequent cultivation. Hoe all weeds away from the plants. We offer 2-yr., 3-yr., 4-yr. and 5-yr.old plants. All of these sizes have some buds. You can expect 2 to 6 quarts of fruit from a 5-year-old plant the year after set, when it becomes well established. Even the 3-year-old plants will bear some fruit the same year set.

We offer for sale JERSEY, RUBEL and RANCOCAS varieties. These are the three best ones. The RANCOCAS is early. Then comes RUBEL, and for late it's JERSEY. JERSEY bears the largest berries. All are excellent quality, and go well together on account of pollination. You may order by name or leave it up to us to select the varieties for best pollination. If you order only two plants we will ship you two varieties.

**Commercial growers please write for special prices on lots of 50 to 1000.**

**Below You

# MORRISON

## LARGEST BLACK RASPBERRY GROWN Many Berries as Large as a Quarter

Morrison is fast becoming the highest ranking commercial Blackcap. It's a rank grower, and produces immense, round, jet-black fruit of the highest quality, both for fresh, canning, freezing, or jams. You cannot beat it. Cumberland is good but Morrison is better. It will bear twice as much fruit as Cumberland will, because the bushes are twice as large. Morrison is about a week later to ripen than Cumberland. Berries will hang to the bushes a week after they are ripe. Easy to pick. Easy to grow.

MORRISON is not too new as this is the seventh year we have been growing it. It's "Time Tested" by this time and is here to stay. Get started this year. Plant some, even if it's only a dozen in the garden. Twelve plants will produce enough fresh fruit for an average family. Plant Morrison for late crop. Plant 3½ by 7 ft. apart. Plant in March, April and May. The earlier the better. Plant in Oct. and Nov. in the fall. FREE planting directions sent with the plants.

## WHY WAIT A WHOLE YEAR? Plant Our 2-year-old, Bearing Age Stock

We offer you some real fancy field-grown Morrison Raspberry plants in 2-year-old transplants. This is the bearing age stock. These have been grown on special raspberry soil, with correct care, fertilizer, cultivation, and spraying, all through the growing season of 1950. Have had double state inspection, and pronounced 100% healthy and clean. When these plants were entirely dormant, they were dug with a power digger to insure getting the entire root system. This root system is very important in all grades of plants, but especially so in a transplant that is expected to bear fruit the same year you set it out. Next they are graded, and pruned all ready for you to set out in your field or garden. These husky, healthy plants will go right to work for you. Order early, and take advantage of the 20% discount we offer for early orders.

## POLYANTHA ROSES

### GOLDEN SALMON—Nothing Better For Edging And Colorful Beds.

Will produce masses of bloom all summer and late into the fall. Rich, deep salmon color which will glow when a mass of them are in bloom. Excellent dark green foliage. Starts to bloom shortly after planted, and will continue late into the fall. They are usually used for plantings along walks, in beds or in front of taller shrubs or evergreens.

**HOW TO GROW AND USE:** Plant along walks, in beds, or in front of taller shrubs. Also excellent as a specimen plant. Plant 12 to 18 inches apart for edging, 20 inches apart in beds. Good ordinary soil, and keep well watered. Trim back to 6 inches tall every spring, as they bloom on the new wood.

# Mortgage Lifter

## NEW EXTRA EARLY BLACK RASPBERRY

This is a brand new variety. However, it has been grown for a few years and well tested out by Mr. John Peterson of Michigan. The original plant was found growing wild along a fence row in this country. It was discovered by O. K. White, a plant inspector, working out of the office of the State Department of Agriculture at that time. Mr. White dug the plant up, and gave it to Mr. Peterson to try out and grow. It took Mr. Peterson 3 years to get a good supply of plants. We will be the only nursery to have it for sale. The plants are grown by Mr. Peterson from the original stock and you will be sure to get true-to-name stock. We are offering them in 1-year and 2-year-olds. MORTGAGE LIFTER is jet-black, EXTRA early. Sweet as honey. Strong grower. Not quite as large as Cumberland, but plenty large to make a very attractive box of fruit. It demands the highest price on the market as it is 10 days earlier than other varieties like Cumberland. You will be

through picking MORTGAGE LIFTER by the time Cumberland comes on.

## CUMBERLAND

*The Business Blackcap*

This is without question one of the most profitable and popular Black Raspberries ever grown. It is the one safe and reliable commercial variety because you can depend on a big crop regularly. We call it the "Business Blackcap" because it succeeds on all soils and produces its big crops year after year.

We have never known Cumberland to fail, and the best proof that it is a profitable variety is the fact that the demand for plants is greater every year and more Cumberland plants are planted than all other varieties combined.

Cumberland is perfectly hardy and tremendously productive. The berries are extra large, glossy black, and not equalled by any other variety in quality, flavor or appearance, except Morrison. Whether wanted for market or home use, we can recommend Cumberland to our most exacting customers. Disease-free. Twice state-inspected plants.

Plant Cumberland for mid-season, MORRISON for late, and MORTGAGE LIFTER of extra early, and you will have berries for a month long. Set plants 3½ by 7 ft. apart. March, April and May are the planting months. The earlier the better. Require well-drained ground. Plant in Oct. and Nov. for fall. FREE planting directions sent with the plants.

# LATHAM

## The Commercial Growers FIRST CHOICE

Latham is to Red Raspberries what Premier is to Strawberries. An old standby that grows anywhere on most any type of soil, and so hardy that it will stand 45 degrees below zero. Latham berries are large, often an inch in diameter. Best all-around berry to grow. Cans well, and fine for freezing. The plants grow large and tall. Holds the load of fruit well when trimmed back to 30 inches tall each spring. Latham has that

old-fashioned real red Raspberry flavor that is lacking in so many other varieties. Set Latham plants 3½ ft. by 7 ft.

apart. March, April and May are the best planting months. Plant soon as ground can be worked. 25 plants will plant a row 85 feet long, and plenty for average family.

# INDIAN SUMMER

## Best Everbearing Red

Because it bears twice each season is the reason why this is such an ideal variety to grow for home use. You will pick a heavy crop off the old canes in late June, and early July, and another crop from the new canes that will come up in September and October.

The big, juicy, red berries are a real treat eaten fresh, making excellent sauce, preserves or jams, and are one of the best for freezing or canning.

INDIAN SUMMER grows vigorously, yields heavily and requires so little care that most any one can grow them on any kind of soil. It's hardy, and disease resistant.

INDIAN SUMMER is not classed as a commercial variety, except for local market. A yield of 5 tons per acre has been reported, and if you have a good local market, it will prove a money maker for you.

### New York State Agricultural Station Says:

"The quality of Indian Summer is good and the season is very early. The fall crop begins in mid-September, continuing until hard frosts in early November. The bulk of the fall crop is borne in October. The plants are above medium to tall, vigorous, upright, hardy, healthy, productive. Fruit is large, uniform, maintaining size fairly well throughout the season; cavity is medium size and smooth; bloom light; color medium red; juicy; tender, mild sub-acid, good."

## GOLDEN QUEEN RASPBERRY

A beautiful, large, golden yellow Raspberry. Many prefer this fine variety to any of the reds or blacks, owing to its sugary sweetness and unsurpassed flavor. Should be in every garden, its beauty and high quality placing it at the head for table use. The canes are hardy, vigorous growers, and heavy croppers. Grows like a Red Raspberry and should be handled like one. Ripens with Latham. Our bearing age plants will bear fruit this year. Both size plants will bear full crops in July, 1952.

### Limit—Very Scarce

## ICEBERG WHITE BLACKBERRY

Strange as it may seem, this is a real creamy white Blackberry. Mixed with the jet-black ones for dessert, it makes a most wonderful dish. The fruit is about the size of Ebony, with few seeds and quite sweet when fully ripe. The bushes are good, strong growers and very productive. This is not a worthless novelty, but a fruit of real value, and should be in every garden.

# Thornless BOYSENBERRY

All of the Good Qualities of the Regular  
Boysenberry BUT NO THORNS

This is the early ripening strain of Thornless Boysenberry with canes as smooth as a Grape vine. RIPENS TEN DAYS TO TWO WEEKS EARLIER THAN BOYSENBERRY. The introducer claims even heavier yield from this Thornless Boysenberry than the common Boysenberry. This new strain Thornless Boysenberry is identical to the Boysenberry except that there are no thorns and it ripens earlier. This is a very good feature as the early berries bring more money. The Thornless is just as hardy, rugged and heavy bearing as its parent, the Boysenberry. Vines grow 25 feet long, and this pretty apple-green vine loaded with giant purple beauties is a sight you will never forget, and after you taste a handful of them, other berries will go begging for a while. Delicious with cream and sugar, and when made into jam, it's the last word. Supply of plants still limited, so hurry.

## RED LAKE CURRANTS

This new, better and extra hardy large red Currant comes from Minnesota. This Red Lake is the last word in Currants and you will really want a few plants of them even if you think you have plenty of Currants already. Produce long, large, red clusters that make up into excellent jelly. Ships well and is the best commercial variety to grow.

##### 2-Year-Old, Bearing Age

3 Red Lake Currants.  
3 yr., bearing age.  
3 Gooseberry. 2-yr.-old.

6 Fine Plants  
Worth \$5.00  
FOR ONLY \$3.25  
NO DISCOUNT

This new Gooseberry was originated at the North Dakota Experiment Station. It picks well, and that is why it was named PIXWELL. The berries hang on slender stems about 2 inches below the branches.

It is absolutely hardy, and a good vigorous grower, producing large bushes that are able to carry the load of fruit which is light green, and turning to a pink when fully ripe.

Foliage colors up in late summer, and makes a very beautiful ornamental bush.

We offer this year strong two-year-old bearing age plants. Each 95c; 3 for \$2.75; 6 for \$5.35; 12 for \$9.85; 25 for \$17.50; 50 for \$30.00. LESS DISCOUNTS.

**58-DAY  
GOLDEN  
YELLOW HYBRID  
SWEET CORN**

**EARLIEST

**MARY WASHINGTON  
ASPARAGUS**

There is no variety of Asparagus as good as Mary Washington, and whether for home use only or for market, you cannot afford to grow any other. This wonderful new Asparagus was developed and introduced by the U. S. Department of Agriculture, and although a recent introduction, it has become famous the country over.

Growers everywhere are discarding all other varieties in favor of Mary Washington, because it is earliest, the stalks are larger, more tender, more productive than any other variety.

**"Thundercloud"  
New Blood Leaf Plum**

Makes a beautiful shaped **dwarf** tree, bearing deep rich blood-red foliage. This foliage is so dense that the tree will look like a big red ball. If kept sheared several times through the growing season, it will make a formal tree. Dainty pink flowers early in the spring. **We offer heavy rooted, 3 to 4 ft. tall trees for \$2.50 each; 2 for \$4.00.** Very scarce, so there is **No Discount.**

# EBONY KING BLACKBERRY

The Greatest Blackberry discovery in 30 years. It's been thoroughly tested for 3 years before being offered to our customers. As you probably know that most Blackberry varieties offered are sterile, and will only bloom, and not bear. EBONY KING will bear large juicy fruit over a 3 weeks' period. It's very hardy, and a thrifty grower. Bears annually and early in the season before hot weather sets in. Self-pollinating. Has a sweet nectar flavor that no other variety has or ever did have. Supply of this variety is still limited.

## GRAPE VINES

### CONCORD

Concord is beyond a doubt the most popular blue Grape. More Concord are planted

than all other varieties. It is the commercial table and wine variety. Concord is perfectly hardy, having stood 30 degrees below zero without injury. Does well on any soil, but makes the sweetest fruit on light sand that has been well fertilized. Bunches are large, compact and well shaped. Sweet and juicy. Vines grow fast, and bear young.

### LOST LABEL RED GRAPES

We have a few thousand 3-year-old bearing age Red Grapes that we are offering as LOST LABEL RED GRAPES, because we do not know what variety they are. We do know that they are one of the standard Red Grapes, and are fine plants but we cannot name them, so will offer them for less than half of what they are really worth. You won't go wrong on them IF you like Red Grapes. Prices: 3 for \$1.00; 6 for \$1.50; 10 for \$2.00. **No Discount.**

### CACO

This is the new quick-growing, young-bearing, delicious, sweet, big red Grape that is so popular. It has no equal as a home-use table Grape. It has a peculiar characteristic found in no other Grape, in that it is rich in flavor. Its deep, wine-red color is so pleasing to the eye. A vine full of these rich red beauties is a sight.

## STREAMLINER

### *The New Everbearer*

**ENORMOUS SIZE BUT NEVER HOLLOW**

### *Brings Sensational Results*

250 Everbearing Strawberry Plants Will Supply Fruit  
for Family of Five All Summer and Fall First Year Set  
Requires Space 25x10 Ft., 1 Ft. Apart

#### EAT DELICIOUS BERRIES 60 DAYS AFTER YOU SET OUR PLANTS

Berries sell for 45c a pint in stores and roadside markets, all summer and fall.

We are always on the outlook for a better Strawberry, especially an everbearing variety. There are many very good varieties like Mastodon and Gem. They are all mighty good in every way. HOWEVER, we have never seen a more beautiful Strawberry than the STREAMLINER. It's almost round, with a small hull, and of enormous size. Even larger than the famous Mastodon. The STREAMLINER will ripen up even, to the prettiest bright scarlet color, which will attract customers' attention every time. Sweet as honey, with very little acid.

#### BEARS 60 DAYS AFTER SET

Set STREAMLINER plants during March, April or May, and you will be picking those big, sweet, juicy beauties 60 days later. Think of it—no waiting a whole year for berries. When late killing frosts come in October or November the plants will still be loaded with green and ripe berries, and even blossoms. It will take a good hard frost to stop them.

#### BEARS 3 CROPS IN 18 MONTHS

Then the following June, you will again harvest a full crop, just like an ordinary Strawberry, and with good care they will keep on bearing till late into the fall.

#### STRONG, HARDY GROWER

STREAMLINER is a thrifty, strong, and hardy grower. Does well on most any soil, and seems to do well in both wet and dry seasons. Perfect flowering, and needs no other variety to pollenate it. You will just have to try this variety to know how wonderful STREAMLINER really is.

## MASTODON

### **Everbearing**

- MASTODON—Bears Until Heavy Frosts
- MASTODON—Grows Without Special Care
- MASTODON—The Oldest Everbearing Variety
- MASTODON—Bears 60 Days After Set

Mastodon has been with us for about 20 years, and in all these 20 years we have never known them to fail on a full crop 5 to 6 months long the same year they are set out. The size of the berry is like Streamliner—very large. It is of very good quality, red all the way through, and fine flavor. Bears as heavy as Streamliner, and makes many new runner plants. These new runner plants will also bear toward fall, and then you have a real picking row. This wide row will make fine picking next June as a spring berry. Mastodon does not require any special soil, care or petting. They grow most anywhere, or on any soil that will grow garden or potatoes. They sell like "hot cakes" on roadside stands, or on any market. It will take a hard freeze to stop Mastodon from bearing. White frost will never hurt them at all. A field of Mastodon in full bearing in late November is a sight never to be forgotten. Even after a light snow one can go out and find ripe berries unharmed.

# ROBINSON

Largest June Bearing Strawberry Known

**HIGHEST QUALITY.** These big round blunt-pointed berries are of top quality. They are borne on large thick fruit stems, that are protected with a heavy foliage that makes up a wide fruiting and picking row.

The tangy rich sweet flavor is found in no other Strawberry. ROBINSON is the largest berry we have to offer. It's late—starting to ripen about the time Premier is finishing up. By planting Premier for early and Robinson for late, you will have fresh fruit from start to finish, over a 30-day period. 18 to 30 berries will fill a quart box. Berries have a firm skin, and are solid all the way through, making it a good shipper as well as a good home use variety. You will like Robinson.

# PREMIER

The Most Famous Berry Ever Introduced

Premier Strawberries sold as high as \$11.50 per 16-qt. crate on the Benton Harbor, Mich., Wholesale Fruit Market.

If you plant STROMER'S PREMIER you will get the first berries on the market. They will be bearing heavily before other varieties begin. Your biggest picking will be when berries are in good demand and are bringing top prices. Premier will grow anywhere. The plants are sturdy and long rooted, a good drought-resister. The berries are very large, and hold their size to the last picking. The flavor cannot be beaten.

Premier is as near frost-proof as any Strawberry can be. Premier sets the standard in Strawberries like Latham and Cumberland do in Raspberries. You cannot go wrong.

## SENATOR DUNLAP JUNE BEARING

Senator Dunlap is an old well known variety that has made more dollars for berry growers than any other variety. It will grow most anywhere and on any kind of soil. However, it will do best on heavy, rich soil. If planted on light soil, be sure to set them 2 feet apart. On heavy soils set them 18 inches apart. Berries are dark red, firm, and sweet. Wonderful for canning and freezing as well as fresh.

## Minn. 1166 Now Called "Evermore"

**At Last! An Everbearing Strawberry That Has Everything—**  
Starts Bearing 60 Days After Set and Continues Bearing Till  
Heavy Frosts—3 CROPS IN 18 MONTHS!

Minnesota 1166 is a large, long-pointed berry, produced on long-branched fruit stems, well hidden under the leaves for good protection. The color of the fruit is on the dark red order, and a solid red clear through the berry, even when the berry is still not quite ripe.

Minnesota 1166 is just as productive as any everbearing Strawberry we have grown, and makes a good quantity of plants. For best results in fruit production, we recommend that the runners be pinched off as fast as they appear in the summer.

## SMOKE TREE

The clouds of misty purple flowers make this tree shrub look like a puff of smoke. That's how it got its name. When not in bloom its attractive deep green leaves make a fine shade tree. We show one that has been trimmed to make a tree. We selected one stem, and keep it pruned to form a tree. Most of them will grow more like a shrub. Will grow to 8 to 10 ft. tall. Could you think of anything prettier than this for a background or screen, to hide your neighbor's chicken coop, barn, or garage?

Smoke Tree

(Patent No. 993)

# RED RICH

## EVERBEARING STRAWBERRY

million, that hit square, retaining the good qualities of both parents.

1. As a dessert berry it has very high quality, honey sweet from its parent Wayzata. Extra large and deep red all the way through like its parent Fairfax. The large size of Red Rich is maintained throughout the bearing season.

2. Red Rich is not surpassed as a freezing berry, as it is very firm and deep red clear through. It does not mush up when thawed, due to its firm meaty quality and in addition is very sweet, requires little sugar. Red Rich will become the outstanding Strawberry for deep freezing commercially, as well as for the home garden.

3. High yield. Last season 4,000 quarts were picked from a 1-acre planting. Red Rich the second season produces a June crop in a matted row, like a June bearing, and in addition, a heavy everbearing crop through August, September and October.

4. The Red Rich plant is the largest Strawberry plant we have ever witnessed. The crown and root system are exceptionally large, as well as the leaves. This sturdiness makes for disease resistance and capacity for its outstanding yields of large, deep red, sweet berries.

From every standpoint Red Rich is tops in the Strawberry world. Supply is limited—order yours now.

RED RICH Everbearer, we believe, will soon become the leading everbearing in the United States. It has all the superior qualities which we have been looking for in a Strawberry, as well as being an everbearer. All everbearing up to date have had their faults, mostly lacking in quality along with too many plants produced. The Wayzata has been our outstanding everbearer of all for quality, but a poor plant maker.

RED RICH has all of the luscious eating qualities of Wayzata (very sweet) plus the firm, dark red qualities of the Fairfax. Fruit and appearance of the plant are very similar to Fairfax. The RED RICH being a hybrid of Fairfax and Wayzata, it is the strongest growing plant we have ever seen. Not only are they thrifty growing and disease resistant, but the plant itself makes a good appearance when received by our customers.

"It's the best everbearing to come down the pike in a long time" state the men of the Minnesota Experiment Station.

Red Rich is the result of a cross of Wayzata everbearing and Fairfax June bearing made by Marion Hagerstrom of Enfield, Minnesota. It is a chance seedling, one in a

### DWARF Bartlett Pear

This is just the thing for small back yards or lawn planting. Trees never get large. Bears fruit second year, and of standard size. It's only the tree that's dwarf, and not the fruit. A Dwarf Bartlett not over 6 ft. tall can bear a half bushel of fruit. These trees can be set 8 ft. apart, since they never will get large. **Each \$2.50; 3 for \$7.00.**

**Large 3-yr. trees. Less Discount.**

Bearing age. Many fruited in nursery row in summer, 1950.

### New Red Leaf Peach

Many ornamental trees have been offered with colored foliage, but never an ornamental PEACH TREE with RED FOLIAGE; bright red in spring, dulling to deep maroon towards fall. Deep rose blossoms against red foliage create a most pleasing contrast.

Trees produce a full crop of perfectly round Peaches,  $1\frac{1}{2}$  inches in diameter—just the size for picking. Fruit has all-over red coloring; flesh is white with a delicious sweet flavor. Ripens late, same time as the Gold Drop. Hardier than standard varieties.

Two-purpose tree—a grand ornamental; produces full crop of edible Peaches!

### A Real Novelty

New Red Leaf Peach Showing Fruit, Bloom and a 3-Year-Old Tree  
Leaves Stay Red in Fall, Then Turn Maroon

### RED LEAF PEACH

#### Sensational New Ornamental

4-5 ft. trees: Each \$1.25; 2 for \$2.25. Less Discounts.  
3-year-old size, extra heavy: Each \$2.00; 2 for \$3.50.  
Less Discounts. Trimmed to set.

### Vest Pocket APPLE TREE

#### Six Varieties All On One Tree

This is not just a worthless novelty. It is really true. We have budded 5 different varieties of Apples all on a Whitney Crab Apple stock. This makes 6 varieties all on one sturdy tough understock. You will get Red Delicious, Yellow Delicious, Dark Red Jonathan, Wealthy, Yellow Transparent, and the Whitney Crab on which all these varieties are budded. Yellow Transparent will be the first to ripen, then the Wealthy, and so on up to the late winter keeping varieties. Why buy 6 trees when you have only room for one.

We are offering the super size trees, 3 years old.

**Price: Each \$3.50.**

# EVERBLOOMING CLIMBING ROSES

We offer five of the most popular Climbing Roses. All 2-year-old, field-grown, budded plants.

**CLIMBING AMERICAN BEAUTY.** An old favorite Climbing Rose. Very hardy and a vigorous free bloomer. Color is deep pink, large blooms that resemble Tea Roses. Long stems on long vines. Very fragrant.

**PAUL'S SCARLET CLIMBER.** The reddest Climbing Rose that grows. Large double flowers in clusters. Fine for trellises, arches, or can be trained into a pillar Rose.

**NEW DAWN.** This is an everblooming Dr. W. Van Fleet. Soft pink flowers are borne in clusters throughout the summer and fall. One of the best.

**CLIMBING TALISMAN.** This is also an everblooming Rose. You all know the Talisman Rose. This is it in the Climber. Blooms of salmon-orange shaded with red and gold. Excellent for cutting. Fragrant.

**CLIMBING GOLDEN CHARM.** Climbing form of the beautiful Tea Rose, "Golden Charm." We recommend this to those of you who want a golden yellow Climber to complete your color range. Vigorous grower and blooms resemble those of the Hybrid Tea. May be cut in bud and keep well as blooms open. Buds are deep yellow opening into lighter yellow petals. Fragrant.

**PRICES ON ALL FIVE CLIMBING ROSES**  
Each \$1.00; 3 for \$2.85; 6 for \$5.40; 10 for \$8.50.

# EVERBLOOMING BUSH ROSES

Our everblooming Bush Roses start blooming 60 days after you set them in your yard. Will continue to bloom till killing frosts in the late fall.

**EDITOR McFARLAND.** The sweetest pink Rose of them all. Pointed buds, and very fragrant.

**Poinsettia.** Velvety Poinsettia-red. True color. Non-fading. Long stems make it fine for cut flowers. Free bloomer. Fragrant.

**KONIGEN LOUISE.** This very double perfect shape white Rose is so fragrant. Always in bloom.

**YELLOW CONDESA.** Fine long pointed buds that open to large full shaped fragrant blooms. Free bloomer.

# PEACHES HALE-HAVEN

- PROFITABLE MARKET CROP
- FOR HOME CANNING
- FOR FREEZER STORAGE
- SPICED PEACHES
- PEACHES AND CREAM

This variety is a week later than Red Haven. In popularity and profit producing, it is second only to the famous Elberta. In a few years there will be more Hale-Haven planted than any other variety. Our fancy, well-bred Hale-Haven trees will bear young and annually. Fruit is freestone, and deep orange-yellow with deep red color many days before they are fit to pick. When fully tree-ripened they are a sight to look at. Firm, yet tender, sweet and juicy. Ship well and will keep a week in the refrigerator, even when fully ripe. We do not hesitate to say that Hale-Haven is the best canning and freezing variety of them all. Self pollinating.

# PEACHES REDHAVEN

This is one of the finest quality of all Peaches. Almost solid red all over when fully ripe. Perfectly freestone, and the flesh is firm and meaty. Not soft and mushy like so many of the early Peaches. REDHAVEN is early, and a little smaller than Hale-Haven, but we feel this is due to the fact that this variety bears so heavily. We have thinned the fruit when two months from ripe, and have found that by doing this, they will become a very large Peach. So it would be well to thin them a little when they are on the branches thicker than 6 inches apart. Redhaven is self pollinating, although it is always better to give it a mate of some other variety.

## WHY WAIT?

GIANT SIZE PEACH TREE  
YEAR AFTER PLANTING

## RED ELBERTA

Genuine Elberta Peaches are universally known as the outstanding money-maker Peach wherever Peaches are grown. Roundish oval in shape, with deep golden skin blushed carmine-red. Flesh is golden, rich flavored, ideally firm and fine textured. Without doubt the leading shipping, canning, storage, drying and freezing Peach. Fruit perfectly freestone. Self-pollinating variety. A good pollinator for other Peach varieties. Ripens medium late and remains in good condition on trees a long time. Trees are vigorous growers and usually bear the third year. Enormous yield at maturity. (Ripening date Aug. 20 to Sept. 10.)

## Giant Size Peach Trees

These trees are twice as large as our Super Size trees, and are ready to bear. Well branched, and have a wonderful root system. These are trees that we did not get dug last fall on account of the weather, so we left them in the nursery to grow another year larger. We can offer these Giant size trees only in HALE-HAVEN, ELBERTA and REDHAVEN. Of course the supply of these trees will be limited, so order yours early. **Price: Each \$3.00; 3 for \$8.75; 10 for \$25.00. Less Discounts.**

Red  
Elberta

McIntosh

Grimes Golden

### McINTOSH Solid Red

McIntosh is a late fall Apple. The fruit is red, good size, with white flesh. We would say that it takes the place of the old-fashioned Snow Apple. It's an eating Apple. Trees grow fast and bear young. Not a winter keeper. 2- and 3-year sizes available. **Prices next page.**

Jonathan

### GRIMES GOLDEN

A winter Apple that is in great demand for drying, baking, pie-making, etc. Waxy yellow skin and very firm, hard flesh. Excellent flavor. Wonderful shipper, as it does not bruise easily. Hardy and prolific. **Prices next page.**

### DOUBLE RED JONATHAN

This is No. 2 Apple on the market. That is, Red Delicious brings the highest prices and sells the best, and Jonathan comes next. This variety cannot be praised too highly. It's solid red, good sized, firm, juicy, and keeps well. Its flesh is white and brittle with that tart tangy flavor that's in a class all of its own. **Prices next page.**

### CORTLAND Solid Red

A big, round, shapely FALL APPLE, which has won fame for its QUICK BEARING and HEAVY YIELDING habit. Hardy everywhere, and an excellent pollenizer. Flesh is white, tender, sub-acid, good to eat fresh or cooked. Excellent pie variety. Mostly dark red when ripe, overspread with attractive purplish bloom. **Prices next page.**

Cortland

Red Northern Spy

Only ..... NO DISCOUNT

### RED NORTHERN SPY

It's hard to beat the Northern Spy Apple for eating, cooking or any way you want to use it. Fine grain flesh, juicy, and mellow. Has a flavor that is found in no other variety. Tree grows upright, and makes an excellent shade tree as well as a fruit tree. **Prices next page.**

### DOLGO CRAB

The perfect Crab. Hardy everywhere. Heavy bearer, usually beginning the year after setting. Jells perfectly even when dead ripe. A fine ornamental tree for the lawn as well as a wonderful commercial sort. Rapidly displacing such varieties as Transcendent and Hyslop. Bears young. **Prices below.**

Red  
Delicious

### DOUBLE RED DELICIOUS

This variety is far superior to the common red Delicious, as it is highly colored all around, with no green sides. Double Red Delicious is America's number one Apple. It tops the market every time, and seems to bear in a wide range of soils and climates. The fruits are very large, solid red, with the five points, and rather long in shape. Truly a most beautiful Apple, and the best eating Apple of them all. Flesh slightly yellow, with semi-sweet flavor. Two- and three-year-old sizes available. **Prices below.**

### SOLID RED ROME BEAUTY

This is one of the most beautiful of all Apples. Extra large, well shaped, red all over. Firm texture. Marvelous for eating, baking or cooking. Very fine pie Apple, too. Keeps well into the winter. **Prices below.**

**GIANT SIZE**

### Apple Trees

These trees are twice as large as our **Super Size** trees, and are ready to bear. Well branched; and a wonderful root system. These are trees that we did not get dug last fall on account of the weather, so we left them in the nursery to grow another year larger.

We can offer these GIANT size Apple trees in the following varieties, only: Yellow Delicious, Jonathan, McIntosh, Grimes Golden, Red Rome Beauty and Cortland. The supply of these Giants is limited, so order yours early. **Price: Each \$3.25; \$9.00 for 3; 10 of them for \$27.50. Less Discounts.**

Yellow  
Delicious

### YELLOW TRANSPARENT

The finest extra early yellow Apple. It ripens in July. Fruit medium size, and can be used for pies and sauce before entirely ripe. Flesh white, mild, juicy and sweet. Bears young and regularly. Two- and three-year sizes available. **Prices below.**

### YELLOW DELICIOUS

Winter. Comes into bearing early, producing heavy crops. Very thrifty, hardy, vigorous grower. A golden Apple which has won fame as an outstanding commercial variety. 2- and 3-year-old sizes available. **Prices below.**

## STANLEY PRUNE PLUM

### IMPROVED ITALIAN PLUM

Large blue Prune type Plum. Sweetest of all Plums. Flesh is yellow as butter, and the pit falls out when broken open. Starts to bear young and regularly each year. Needs no other variety to pollinate. Ripens early September. Wonderful shipper and keeper. Eat them fresh, can them, or freeze them, and you will have the best. Supply of Stanley Prune trees limited this year. Order early. **Prices below.**

## RED GIANT MOST BEAUTIFUL PLUM IN THE WORLD

Clusters of 7 to 12 mammoth beauties on the end of each branch! Fruit often measures 2½ to 3 inches long. Roundish oblong in shape. Ripening evenly, Red Giant Plums attain a deep, glowing maroon-red color, thickly overspread with pink bloom. No other Plum like it! Flesh is greenish yellow, very firm, fine and sweet. Wonderful shipper and canner. Not easily bruised in handling. **Prices to right.**

Red Giant

## MIRACLE

OUT OF THIS WORLD.

(Patented)

Its beautiful 2- to 3-inch in diameter fruits, with thin skin and extra heavy meaty flesh, make it the last word in an eating Plum. (Notice the small pit in photo.) Ripens in July and August. Colorful leaves make it a fine ornamental tree in your yard. Trees grow medium size, often bear second year. We offer only large, SUPER SIZE trees. **Prices: 4-year-old trees, each \$3.50; 2 for \$6.00. No Discount.**

## GREEN GAGE

Large greenish yellow in color, and sweet as honey. Flesh is yellow and very juicy. Truly a dessert Plum. Also very fine for Plum butter, canning or freezing. Trees bear young and annually. A basket of tree-ripened Green Gage throw off a sweet perfume that is produced by this variety only. Deserves to be in every back yard or garden. **Prices above.**

Green Gage

## DWARF SAPA

(Plum Cherry)

This dwarf hybrid Cherry Plum comes from Minnesota. It will also bear where it gets too cold to grow the regular Cherries. It's sweet as honey when fully ripe. Trees bear at 3 years old. Being a dwarf tree, they can be set 8 feet apart. **Prices above.**

Dwarf Sapa

Black Giant

## BLACK GIANT

This black Cherry bears fruit of large size and deep color. Flesh very solid, flavor of the highest quality; tree thrifty, upright grower, very hardy and productive; a fine shipping and market variety. Also excellent for drying and home canning. May be used for locker storage after quick freezing. Always brings top prices on the market due to its large size and deep color. **Prices below.**

## BLACK SWEET CHERRY

## WINDSOR

This is that extra large blackish red Sweet Cherry that you see in the fancy fruit stores, that sells anywhere from 35c to 60c per pound. Brittle and sweet. Small pit. Dark wine-red all the way through the meat. Remarkable keeping qualities, and a wonderful producer. Ripens about the time most of the smaller varieties are off the market. Brings the highest price on any market on account of its size and attractive appearance. **Prices below.**

| CHERRY PRICES |         |                |         | SUPER SIZE TREES, 11/16 In., 5-6 Ft. |        |                |         |

## MONTMORENCY PIE CHERRY

The finest and most reliable pie Cherry ever introduced. Big, round, juicy, bright red fruits will be yours to eat fresh or canned every July if you will set our "Certified Bud Selected" trees this spring. Often bears the year after set. Deliciously sub-acid. Good to eat fresh, or canned, frozen, or in pies. Also the one to use for Cherry juice. This variety will grow most any place in the United States, except the deep South. Not fussy about the soil. Montmorency is so dependable, and always sells. Folks will come and pick themselves, if you find yourself short of help in harvest time. **Prices above.**

## PLANT A MULBERRY TREE

### Russian Mulberry

This is a fine tree both for shade, and also a fruit tree. It will pay you to have one or two of these Mulberries growing on your place to feed the birds. The birds prefer them to your Cherries, so this is the very best way to solve your Robin trouble in Cherry time. It really works. 4-5 ft. trees, each \$1.35. Less Disc.

## PURPLE CHAIN TREE

(Tree Wistaria)

Large racemes of charming pea-shaped orchid flowers in great quantities on graceful drooping branches with artistic green leaves. Grows 6 to 8 feet at maturity. **Grafted, sure to bloom, branched, 3-4 ft., balled in peat, \$3.50 each; 2 for \$6.50. Less Discounts. Supply limited.**

Hopa

Nectarine

### **NANKING CHERRY**

Here's the ideal combination you've been looking for—an attractive **ornamental bush** that bears loads of **delicious Cherries** for pie, sauce and jelly!

**NANKING** Bush Cherries grow only 3 to 4 feet tall. They make excellent foundation plantings with their delicate green leaves (which turn bronze in the fall), their mass of white bloom early in spring and brilliant red fruit in August. Also excellent bird food. **Prices: 2-3 ft. bushy plants, each \$1.50; 3 for \$4.00; 6 for \$7.00. Less Discounts.**

### **NECTARINE**

Lovely pink flowers in spring, on small, ornamental trees. Loads of deliciously sweet fruit in late summer! Smooth skin like Plums. Mellow, rich, juicy flesh like Peaches. Very fragrant and attractive. A treat for the family, whether served fresh or canned. Hardy as Peach trees, and self pollinating. **Prices below.**

#### **BARTLETT, NECTARINE and APRICOT PRICES**

| 9/16 In., 4-5 Ft. |         | SUPER SIZE TREES   |         |
|-------------------|---------|--------------------|---------|
| Each              | \$ 2.00 | 11/16 In., 5-6 Ft. |         |

| 10 for            | 15.75   | 5 for              | 12.95   |

**LESS DISCOUNTS**

### **HARDY APRICOTS**

Will even grow as far north as the Dakotas. Original Manchu strain. Bears annually. Trees will often start bearing at 3 years. Fruit is a beautiful orange color. Freestone. Skin is smooth and fuzzless. Sweet as sugar. Not necessary to peel them. Self pollinating. **Prices above to right.**

Apricot

### **HOPA FLOWERING CRAB**

Beautiful bright red flower buds that change to clear shell-pink when fully open. Apple blossom fragrance. Picture shows it in full bloom. In midsummer small red apples will be produced, which make fine jelly. Hardy. We offer you blooming age and size trees, 6 to 8 ft. tall and branched. **Each \$3.50; 2 for \$6.00. Less Discounts.** (See Collection No. 26.)

\$4.50  
NO DISCOUNT**

Nanking Cherry

### **BARTLETT PEAR**

The Bartlett is the most widely known Pear of them all. It ripens about the first of September. Large, fine texture and flavor. The ideal canning Pear. Yellow, with red blush. Flesh is snow-white and juicy. Bartlett sets the standard. **Prices to left.**

Bartlett

## ELEYI THE RED LEAF FLOWERING CRAB

Beautiful deep rose color buds that open to a clear shell-pink. Fragrant, and bears small red apples in midsummer. Picture shows tree in full bloom stage. Hardy. Foliage is a reddish bronze. Eleyi is a good mate for HOPA, and what a cloud of beauty they are on any landscape. Blooming size and age trees. 6 to 8 ft. tall and well branched. **Each \$3.50; 2 for \$6.00.**  
Less Discounts.

(See Collection No. 26.)

## HARDY AMERICAN BLACK WALNUT

Makes a fine shade tree, and also valuable in the production of nutritious nuts. Very hardy anywhere, and will grow most any place or in any soil, wet or dry. Often grown for timber. Black Walnut lumber, as you know, is very valuable. **4-5 ft. trees, each 75c; 5 for \$3.25; 10 for \$6.00.**  
Less Discounts.

Walnut

## HANSEN BUSH CHERRY

The New Quick-Bearing Cherry—**EASY TO GROW SURE TO PRODUCE—Highly Productive—Good Flavor Hardy Everywhere**

Though the fruit of this new Cherry much resembles a Plum in size and shape, it comes massed in clusters and at times almost completely covers the limbs. The tree grows in a dwarf bushlike shape, rarely getting over 4 or 5 feet tall. Also of striking ornamental value.

**Plant Hansen Bush Cherries Because:**  
 1—They are so easy to grow and are perfectly hardy everywhere.  
 2—Are good to eat fresh, and make delicious preserves.  
 3—Bear from the ground up, early, heavily, and annually.  
 4—Are dwarf growing, bushy, and take up little room.  
 5—Excellent for hedges, ornamental shrubs and erosion control.

## GIANT FILBERT NUTS

We offer the BARCELONA variety. Produces the largest, sweet meated nuts of them all. Heavy producer, and will grow anywhere, either high or low ground, but prefer lower land. We offer plants 3-4 ft. tall, transplanted, and have already borne in the nursery row. **Price: 3-4 ft. tall, each \$2.75; \$5.00 for 2; 5 for \$9.50. No Discount. Supply Limited.**

## Chinese CHESTNUTS

**CASTANEA MOLLISSIMA.** This wonderful new strain of Chinese Chestnut is very hardy, having stood 22 degrees below zero. Blight resistant. Prolific bearers. Start bearing young, often the third year. Trees grow about the size and shape of an Apple tree. Fine flavored sweet nuts, much better than the American Chestnut. Also makes a fine shade tree in any lawn. We offer fine 2- to 3-ft. trees in transplants with fine root system. **Each \$2.50; \$4.50 for 2. Less Discounts.**

Chinese Chestnuts

## DWARF EVERBEARING FIG

Our Everbearing Figs are developed for growing in the North, as they do well in either tubs or out-of-doors; however, they cannot be grown successfully outdoors north of Philadelphia. (We recommend tub culture north of that point.) The root is hardy and will survive even though the top is frozen. Plants bear the first year they are set out. The fruit is of good size, sweet and delicious. **2-3 ft. trees, \$1.25 each; 2 for \$2.00. Less Discounts.**

Fig

Golden Chain Tree

## Golden Chain Tree

(*Laburnum Vossii*)

A very rare tree indeed. In late April and May this upright tree will be loaded with 18' to 24-inch long clusters of sweet-pea-like blossoms, of the brightest yellow. Very ornamental and even the tree itself is a beautiful thing even when not in blossom. These 6-8 ft. trees that we offer are cheap at \$3.00 each. Less discount. Limited number for sale this year so hurry. **Price: 6-8 ft. trees, well branched, ready to bloom, each \$3.00; 2 for \$5.50. Less Discounts.**

## BLAZE CLIMBING ROSE

THE CLIMBER SUPREME

One of the largest selling Roses ever introduced. Grows in true pillar form. Terrific crop of early blooms followed by repeat blooms throughout the summer and fall season. Plants have the hardiness and good habits of the Paul's Scarlet parentage. Good, bright green foliage and sturdy canes. Excellent for use on each side of a driveway entrance or along a background fence. Color is intermediate scarlet and does not readily fade after blooms open. The patent rights on Blaze have run out so we can now sell it at regular prices as follows: **Each \$1.00; 3 for \$2.85. Less Discounts.**

# HOW TO ORDER

Fill out and mail your order as soon as you can after you receive this catalog. Remember, the earlier the better. On all early orders received before February 5th we are allowing a 20% cash discount on items in this catalog. Or you may take your discount in extra plants. 15% cash discount will be allowed on all orders received before March 5th, and 10% cash discount on orders received before April 5th.

**TERMS and REMITTANCE.** Send post office or express money orders, bank draft, or your personal check. Please do not send currency unless you register the letter. Our terms are full payment with order. However, on orders amounting to over \$10.00, we will accept one-third payment with order and you may send the balance before it is time to ship.

**WHEN TO PLANT.** March, April and May are the spring planting months. October and November, are best fall planting months. Let us ship when its just the right time.

### REFERENCES

The Bank of Three Oaks; Citizens Bank, Michigan City, Indiana; American Railway Express agent, Postmaster or Dun & Bradstreet.

**HOW TO SHIP.** We ship everything either by express or parcel post. We will not make freight shipments, as this service is too slow. Express is the best and cheapest in most cases. Again, if in doubt, let us decide which will be the cheapest and best for you.

**DISCOUNTS.** It will pay you to mail your order early, as this year we are allowing 20% cash discount for orders received before February 5th, 15% before March 5th, 10% before April 5th. If you prefer extra plants for this discount, please state on the order sheet. 20% allowed on all fall orders.

Complete growing instructions will be sent with each order.

Look for them in the package, and save for future use.

### GUARANTEE

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition. Furthermore, we will, at our option, either replace free of charge, or refund purchase price on any stock that arrives in bad condition; providing claim is made within 5 days from arrival of shipment, accompanied by a signed statement from the Express Agent or Postmaster at destination, showing extent of loss or damage. If any stock proves untrue to name, it will, at our option, either be replaced free of charge, or purchase price will be refunded; but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgement of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

# GLADIOLUS

This Rainbow mixture is made up of 10 or 12 beautiful varieties. Not a poor variety or color in the lot. All strong growing cut flower varieties blended into one lot, well mixed. This is not a lot of junk. Rather this mixture is grown just for this mixture. It's just as easy to grow good kinds as poor ones. You will be delighted when you see your bloom. We offer 2 sizes in this mixture.

## SILVER LACE VINE

In a few short years this has come to be America's No. 1 vine for covering pergolas, archways, arbors, lattice, fences, etc. It is graceful, hardy and easy to grow. Will grow 25 feet or more in a season and a fully developed specimen is a cloud of misty white, with tints of yellow and pale rose, suggesting old lace. One of the most satisfactory vines. 75c each; 3 for \$2.00. Less Discounts.

A Bouquet from Our Rainbow Mixed

Silver Lace Vine

## MIRANDY

Pat. No. 632.

Rich, glamorous, deep crimson blooms open from long, pointed, ovoid buds. Excellent foliage is heavy in texture and covers the erect, symmetrical branches. Bush is vigorous and sturdy, generally reaching about 30 to 36 inches in height. Very penetrating Damask fragrance. Specially fine for cutting as the buds will open slowly into gorgeous 50-petaled blooms. 2-yr., field-grown plants, \$1.50 each; 3 for \$3.75. No Discount.

Mirandy

## Old Fashioned BLEEDING HEART

This lovely hardy old-fashioned plant is loved by all. Lives for years and comes forth each spring, right after the snow goes off, with its long arching stems, loaded with dainty heart-shaped flower pendants. Rosy red, pale yellow centers. All stems do not appear at once. Will bloom over a 6-weeks period. Plants are very hardy, and can be divided every 3 years. Plants go dormant in June in time to plant annuals like Zinnias or Marigolds. Large field-grown clump plants, price: Each 75c; 3 for \$2.00. No Discount.

Spirea Van Houttei

Persian  
Lilac

Red Dogwood

Red Althea

Hydrangea P. G.

## FLOWERING SHRUBS

### PERSIAN LILAC

A dwarf variety with slender, arching branches. A more profuse bloomer than the common, and does not sprout from the roots. Desirable for grouping with other shrubs. Makes a beautiful hedge when planted 2 feet apart and trimmed to desired height. **Prices:** Strong, 2-3 ft. plants, each 75c; 2 for \$1.45; 10 for \$6.75. Less Discounts.

### SPIREA VAN HOUTTEI

One of the most common but still one of the most beautiful of all shrubs. So easy to grow. Early in the spring the leafless branches will be colored with tiny snow-white blooms drooping gracefully to the ground. Often called Bridal Wreath. We offer strong, field-grown plants in 18-24 inch size. Best size to plant. Will bloom this year. **Prices:** 3-year-old, 18-24 inch, each 35c; 3 for \$1.00; 6 for \$1.80; 10 for \$2.80; 25 for \$6.25. Less Discounts.

### SINGLE SCARLET FLOWERING QUINCE

(*Cydonia Japonica Rubra*)

Loads of bright scarlet-red flowers with golden stamens, charmingly arranged all along stems in early spring. Foliage is green tinged maroon and very interesting. A medium height shrub. Also makes a hardy, dense hedge. Small, fragrant Quinces make delicious jelly. Rich in pectin. **Strong 18-24 in. plants, each 55c; 3 for \$1.50. Less Discounts.**

### DOUBLE RED ALTHEA

Blooms in August when other flowers are so scarce. See picture at left. A four-year-old Red Althea in full bloom. If you are looking for bright color in your landscape, here is the answer. Bright red, and as double as a Rose. May be used for a hedge or tall growing background. We offer 2-3 ft. strong plants. **Price: Each 75c; 3 for \$2.10; 10 for \$6.00. Less Discounts.**

### RED DOGWOOD

(*Cornus Florida Rubra*)

Lovely red flowered Dogwood, that blooms so early in the spring, on gracefully shaped trees. Will grow in shade, in dry or wet soil. **Price: 2-3 ft. trees (balled in peat), each \$2.50. Less Discounts.**

### WHITE DOGWOOD

(*Cornus Florida Plena*)

Beautiful, large, snow-white flowers early in the spring. Grows well in shade or open sunlight. Dry or wet soil. Not fussy at all. **Price: 2-3 ft. trees (balled in peat), each \$2.00. Less Discounts.**

### FORSYTHIA (Golden Bell)

Earliest of all shrubs to bloom in the spring. Always covered with yellow bells before the leaves appear. Often in bloom during a late spring snowstorm. Bloom this year. **Prices: 2-3 ft. plants, each 50c; 3 for \$1.45. Less Discounts.**

### HYDRANGEA P. G.

Flowers are extra large, white at first, turning to a pretty pinkish purple, and later on in the fall to a perfect bronze. Fine winter bouquet. Blooms July to October. Bloom this year. **Price: 18-24 in., strong plants, each 95c; 2 for \$1.75. Less Discounts.**

Forsythia

Scarlet  
Quince

Mock Orange,  
Virginal

Hydrangea A. G.

Redbud

## FLOWERING SHRUBS

### REDBUD

One of the handsomest of the low growing, flat-topped trees. Attains a height of about 15 feet at maturity. Along the numerous, wide spreading branches, rosy lavender blooms appear before the tree leafs out in spring. Flowers are so thick the tree appears as a small pink cloud. Due to the extreme hardness of the wood, the tree is usually very late leafing out. **Prices:** 2-3 ft. trees, ready to bloom, each 1.25; 2 for \$2.25. Less Discounts.

### Watermelon Red CRAPE MYRTLE

The plant which is so much a part of southern beauty, is now available in hardy form for those of us in more northern climates. Habit similar to Buddleia, as it dies down to the ground each winter in the north, but throws up new shoots each spring and flowers in the summer. 12- to 18-in., \$1.00 each; 2 for \$1.75; 4 for \$3.00. Less Discounts.

### PRUNUS NEWPORT

Rich blood-red leaves, becoming darker as the season advances. Hardy pink blooms early in spring. Excellent for adding color to your landscape. 3-4 ft. trees, \$1.00 each. Less Discounts.

### MOCK ORANGE, Virginal

This is the new, double white Mock Orange that is so fragrant that it will spray a room with perfume when used as a cut flower. No better shrub to dress up the yard. Hardy. Strong grower. Blooms in May and lasts two weeks. **Prices:** 18-24 in. shrubs, each \$1.00; 2 for \$1.90. Less Discounts.

### HYDRANGEA A. G. (Hills of Snow)

This is the snowball type Hydrangea. Large blooms in June and last all summer. Will grow in the shade as well as sunlight. **Prices:** Large, 18-24 inch plants ready to bloom, each 95c; 2 for \$1.75. Less Discounts.

### HARDY PRIVET HEDGE

(Amur River North)

Easiest to grow of the Privets. Very hardy. Thrives under unfavorable planting conditions. Glossy green leaves. Clusters of white flowers followed by berries. Trim to desired height and shape any time during the summer. Leave untrimmed for foundation and screen plantings. Set bushes 9 to 12 inches apart. For very wide hedge, plant two rows, alternating the plants. Well-branched, well-rooted bushes.

|           | 10     | 25   | 50     | 100     |
|-----------|--------|------|--------|---------|
| 18-24 in. | \$2.50 | 3.95 | \$7.00 | \$12.00 |

LESS DISCOUNTS

### RED BARBERRY

Same as green Barberry except that the foliage is bright red. Stays red all summer and followed by red berries in the fall. Plant 18 inches apart. Fine to plant near or around evergreens to discourage dogs. **Prices:** 15-18 in., strong plants, each 60c; 3 for \$1.75; 10 for \$5.00. 18-24 in. strong, each 75c; 3 for \$2.00. Less Discounts.

### GREEN HEDGE BARBERRY

Barberry Thunbergii makes an ideal low growing, bushy hedge for front lawns, and along short driveways. Also useful for groups of three or five in corners. Green leaves turn gold and scarlet in fall. Red berries remain through winter. Set bushes 18 inches apart. (Rust-free type.) **Prices:** Well rooted, well branched, strong, 18- to 24-inch plants, each 40c; 10 for \$3.50; 25 for \$7.50. Less Discounts.

Mountain Pink

Cutleaf Birch

### MOUNTAIN PINK, Phlox Subulata

#### Moss or Creeping Phlox

One of the best loved and best known of the spring blooming family. These low spreading plants, with solid sheets of flowers that hide the mossy evergreen foliage through May and early June, have endeared themselves to everyone. They are about 6 inches high and make clumps from 1 to 2 feet across.

All are sun lovers and are very drought resistant. The soil should be well drained and not too rich. Excellent for the rockery, front of the hardy border, and for covering terraces, dry hillsides and cemetery work. Plant 12 inches apart in masses, or drifts for pleasing effects. **Nice, well-rooted plants, 3 for \$1.00; 6 for \$1.95; 10 for \$3.25. Less Discounts.**

#### CUTLEAF BIRCH (Weeping)

The queen of all Birches is this unusually graceful tree with weeping branches. Excellent for lawn planting. Bark is white, and peels as the wood ages. Picture at left. **Prices: 6-7 ft. trees, each \$3.50. Less Discounts.**

#### CLUMP BIRCH (European)

This is the white bark Birch, with three stems to each tree, giving naturalistic effect often seen growing wild. Makes a beautiful tree for the lawn. **Prices: 6-7 ft. trees, 3 or more stems, \$3.50. Less Discounts.**

#### CANOE BIRCH

White bark Birch, upright grower. Beautiful lawn tree. Indians used to make their canoes from the bark of this one. **4-5 ft. trees, \$1.75 each. Less Discounts.**

#### WEEPING WILLOW

This is the Green Weeping Willow, with the long, drooping branches, that dresses up a yard so beautifully. Also fine for rock gardens along the bank of a stream or lake. Very hardy. Will grow on high ground or in water. Picture above. **Prices: 5-6 ft. trees, each \$1.60; 2 for \$3.00. Less Discounts.**

Prs. Grevy

### FRENCH LILACS

**PRES. GREVY.** This is by far the best blue Lilac. Sweet scented. Hardy.

**GEN. SHERIDAN.** Best double pure white. Free bloomer. Sweetest scented of them all. (Not Illustrated).

**CHARLES JOLY.** Large double red Lilac. Sweet scented, and fast grower.

**Prices: French Hybrid Lilacs. 2 to 3 ft. trees, each \$2.00; 2 for \$3.75. Less Discounts.**

Pfitzer's Juniper

## Evergreens

### PFITZER'S JUNIPER

This is one of the most popular Junipers. Spreading type, very hardy. Grows anywhere, even in shade. Wet or dry. Silvery green foliage. Good Pfitzer's Junipers are very scarce so order early to avoid disappointments.

#### PRICES

| 2-3 ft.      | Each   | 2      |
|--------------|--------|--------|
| spread . .   | \$4.00 | \$7.50 |
| NO DISCOUNTS |        |        |

### SPREADING YEW

Beautiful Yew of moderate bushy growth, usually grows wider than tall. Branches from the bottom, developing into a bush form. Spreading branches densely clothed with short, dull green leaves. The most attractive spreading Evergreen. Will grow in semi-shade.

#### PRICES

| 2-3 ft. spread . . | Each   | 2      |
|--------------------|--------|--------|
| 3-4 ft. spread . . | \$5.00 | \$9.00 |
| NO DISCOUNT        |        |        |
|                    | 6.00   | 11.00  |

### PYRAMIDAL ARBOR-VITAE

Dark green foliage. Hardy; pyramidal shape. Grows anywhere. Plant one on each side of your garden gate or the entrance to your home.

#### PRICES

| 18-24 inch | Each   | 2      | 4      |
|------------|--------|--------|--------|
| 2-3 feet   | \$2.50 | \$4.50 | \$8.50 |
| 3-4 feet   | 3.75   | 7.00   | 13.00  |

NO DISCOUNT

### IRISH JUNIPER

Of decided columnar form and immediately attracts attention. For formal work, especially in contrast with other plants, it has decided advantage over anything you can use for such work. Slender in habit; needs no shearing.

#### PRICES

| 2-3 feet | Each   | 2      | 4       |
|----------|--------|--------|---------|
| 3-4 feet | \$4.00 | \$7.50 | \$14.00 |
| 4-5 feet | 5.00   | 9.00   | 17.00   |
|          | 6.00   | 11.00  | 20.00   |

NO DISCOUNT

### SWEDISH JUNIPER

This is also an upright growing Juniper that is very beautiful. It grows a little broader than the Irish Juniper, and does not need shearing, although it will stand it if you care to keep it in a certain shape. Beautiful silvery green color. Grows 12 inches a year, and very hardy.

#### PRICES

| 2-3 feet | Each   | 2      | 4       |
|----------|--------|--------|---------|
| 3-4 feet | \$4.00 | \$7.50 | \$14.00 |
|          | 5.00   | 9.50   | 17.00   |

NO DISCOUNTS

### DWARF GOLDEN ARBOR-VITAE

See Picture  
Page 4.

Slow growing, compact, dwarf type. Flattened, yellowish foliage faces outward edgewise, giving a surface of vertical fluted lines. Excellent for foregrounds. 4-yr-old, 12-in. trees: Each \$1.35; 2 for \$2.50. NO DISCOUNTS.

We Offer You Our Fine Evergreens at Less Than Wholesale, So All Prices Are NO DISCOUNT.
